Call for Papers for Special Session

APPLICATIONS OF OR IN INDUSTRY AND MECHANICAL ENGINEERING

at the 17th International Symposium on Operations Research in Slovenia (SOR '23)
which will be held in Bled, Slovenia, September 20 – 22, 2023.

Organized and chaired by: Assist. Prof. Dr. Darja Rupnik Poklucar and Prof. DDr. Janez Žerovnik

We invite submissions for a special session on Applications of OR in Industry and Mechanical Engineering. The session aims to bring together researchers and practitioners to share the latest advances and applications of OR techniques in the industry and mechanical engineering domains.

Topics of interest for this special session include, but are not limited to:

- Optimization of manufacturing and production processes
- Logistics and supply chain management
- Quality control and inspection
- Maintenance and reliability analysis
- Decision-making under uncertainty
- Simulation and modelling of industrial systems
- Data analytics and machine learning for industrial applications
- Human factors and ergonomics in industrial design

We welcome original research papers, case studies, and review articles that present novel contributions or practical applications of OR techniques to industrial and mechanical engineering problems. Papers should be prepared according to the conference guidelines and submitted through the online submission system by the deadline specified on the conference website.

All submitted papers will be peer-reviewed by two independent reviewers. Accepted papers will be included in the conference proceedings and presented in the special session on Operations Research.

We look forward to your contributions and to a productive and informative special session on Applications of OR in Industry and Mechanical Engineering.
